This is a perpetual care cemetery, very well maintained. Enormous in it's entirety. This list will never be "current" as there are burials at this cemetery every day, they will only be current on the date of survey. So if you have a loved one here and do not see their name , it only means their marker was not present at time of my survey OR they have no maker . This cemetery has limited space ,so even though there is a "space" with no marker it does not mean that there is no one buried there, just that there is no marker OR the space is purchased for future burials.

Information will be copied "as is" on the marker / tombstones. (abbreviation of some words)

Survey done in late May 2005 by Debra Coursey-Pitts.
