Hi Joe! Hope, you and family are doing well.

I miss the USA. However, it was not possible to get there, due to the constraints of the authorities regarding aircraft flights. And now the health crisis (covid-19).

I took a look at your site. Very good. What work! Congratulations.

For my part, I collected a lot of information. I can't give them all now, but I want you to fill out the information about Jerald Wayne Nezat: died Nov. 21, 2011. His wife, Carolyn, died July 31, 2019. You can also fill in my date of birth: April 23, 1943 (not 1945).

Thank you very much.

See you later.

Jack
